### Important Notes:

- (1) We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.
- (2) Interest begins to accrue on the first business day after the banking day you deposit noncash items (for example, checks).

**See next page for more Account Information Disclosures.**

Business accounts may be subject to account analysis fees.

<b>Certificates of Deposit (CD's)</b>	\$1,000.00	N/A	N/A	see below	
---------------------------------------	------------	-----	-----	-----------	--

**Interest:** Your interest rate is fixed until the maturity of your deposit. Interest is not compounded on CD's with maturities less than one year. Interest is compounded daily on CD's with maturities of one year or more. For CD's with maturities of one year or more, interest is credited every six months (unless you request otherwise). You may not make any deposits into your account before maturity. You may withdraw interest at any time but a penalty may be imposed. The annual percentage yield (APY) assumes the interest will remain on deposit until maturity. A withdrawal will reduce earnings.

<b>Penalties for Early Withdrawals</b>	<i>Original Maturity</i>	<i>Penalty</i>
	One month	The greater of, 7 days interest on the amount withdrawn subject to penalty if withdrawn in the first six days after deposit or all interest on the amount withdrawn subject to penalty.
	Over one month and one year or less	One month's interest on amount withdrawn subject to penalty.
	Over one year	Three month's interest on amount withdrawn subject to penalty.

**Penalty for Withdrawal within first six days:** We will impose a penalty of seven days interest on amount withdrawn subject to penalty.

**Renewal of CD's:** You have the option of having your deposit renew automatically or not. If the account renews automatically, you may prevent renewal if you withdraw the funds in the account at maturity (or within the grace period mentioned below) or we receive a written notice from you within the grace period. We can prevent renewal if we mail notice to you at least 30 calendar days before maturity. If either you or we prevent renewal, interest will not accrue after final maturity. Each renewal term will be the same as the original term, beginning on the maturity date. The interest rate will be the same we offer on new time deposits on the maturity date which have the same term, minimum balance (if any) and other features as the original term deposit. You will have ten calendar days after maturity to withdraw the funds without a penalty (the grace period). If the account does not renew automatically at maturity, interest will not accrue after maturity.

<b>18 Month IRA</b>	\$500.00	N/A	N/A	see below
<b>30 Month IRA</b>	\$500.00	N/A	N/A	see below
<b>5 Year Roth IRA</b>	\$500.00	N/A	N/A	see below

**Interest:** On the 30 month and 5 year IRA's, your interest rate is fixed until the maturity of your deposit. On the 18 month IRA, your interest rate may change every calendar quarter, at our discretion. Interest is compounded daily on IRA's. Interest is credited every month. You may withdraw interest at any time during the term of crediting after it is credited to your account, but a penalty may be imposed. The annual percentage yield (APY) assumes the interest will remain on deposit until maturity. A withdrawal will reduce earnings. This account will renew automatically. See above paragraph "Renewal of CD's."

<b>Penalties for Early Withdrawals</b>	<i>Original Maturity</i>	<i>Penalty</i>
	Over one year	Three month's interest on amount withdrawn subject to penalty.

You may make deposits to your IRA. You may make withdrawals of principal from your account before maturity. Principal withdrawn before maturity is included in the amount subject to early withdrawal penalty.
